To whom it may concern;

Falcon Ladder & Scaffold Mfg. has been working closely with The Eaglerock Sales Agency for 3 years. Eaglerock has represented us well and we consider them an integral part of our team. I work with them in the annual development of our sales plan, I have them do our catalogue and many of our admats and they handle several of our key accounts. They've also brought many new accounts online. Their contribution to our success these past 3 years has been inestimable.

If you're looking for an Agency that goes far beyond what you'd normally expect of manufacturers reps, Matthew and Michael are the ones for you.
